JOHOR LOGISTICS INDUSTRY ENGAGEMENT

MPC Productivity successfully organized the **Industry Engagement Session in Johor**, introducing the **Container Logistics Ecosystem (CLE)** initiative. The session focused on **industry challenges, operational efficiency, and strategic partnerships** to strengthen national logistics capabilities. Key players including depot operators, hauliers, freight forwarders, and FMM participated in focused engagement sessions.

D&D Control joined as the system developer, marking a step forward in fostering collaboration and innovation in Johor's logistics ecosystem
